Digital Literacy Quiz

Test your knowledge about Digital Literacy

1. 1) What is the most reliable way to verify if an image is an "AI deepfake" or has been digitally altered? 1 point

Mark only one oval.

- Looking for "glitches" in the background only.
- Checking the image's metadata or using a reverse image search to find the original source.
- Assuming it is real if it is posted by a verified account.
- Checking if the lighting looks slightly "off."

2. 2) What does the term "Filter Bubble" describe in social media? 1 point

Mark only one oval.

- A security feature that hides your profile from strangers.
- An algorithm-driven environment that only shows you content aligning with your existing beliefs.
- A pop-up notification that warns you about data usage.
- The aesthetic theme or "vibe" of a user's curated feed.

3. 3) When using public Wi-Fi (like in a cafe), which tool provides the best protection against "Man-in-the-Middle" attacks? 1 point

Mark only one oval.

- An ad-blocker extension.
- Option 2Using "Incognito" or "Private" mode.
- A Virtual Private Network (VPN).
- Clearing your browser cookies.

4. 4) When building a professional profile on LinkedIn as instructed in the course, what is the primary purpose of the "Headline"? 1 point

Mark only one oval.

- To list your hobbies and interests.
- To provide a short, catchy summary of your professional identity and skills.
- To display your home address.
- To list every single course you have ever taken.

5. 5) Briefly describe one practical step you can take to verify if an online news article or source is credible. (Short Answer) 1 point
